I had been considering shutters for my Victorian property for years but had no idea of the cost and feared the worst. I contacted Nook Design, simply gave the window sizes over the phone and was called back the same day with the price. I have no hesitation in recommending Nook for price, customer service and quality of product.

Shutter Styles

Explore our range of shutter styles to find the perfect match for your home. Our collection includes classic plantation shutters for a timeless look, café shutters for a touch of charm, and tier-on-tier shutters for ultimate flexibility in light control and privacy.

FULL HEIGHT

This style of shutter covers the whole window. Full height shutters can also have a divider rail or a louvre split, to operate the slats above and below independently.

TIER-ON-TIER

Two sets of panels, one on top of the other, that open and operate independently of each other. They are extremely versatile and give excellent privacy and light control.

CAFÉ STYLE

Reflecting shutter heritage from the regency period, café shutters only cover part of the window, which gives a continental look and feel. This shutter style is perfect for darker rooms, letting natural light in whilst maintaining privacy.

Each style is custom-made to fit your windows precisely, offering both aesthetic appeal and practical benefits. Available in various finishes and materials, our shutters are designed to complement any interior décor, providing a sophisticated and functional addition to your home.

TRACKED

These shutters slide along a track in front of large windows or doors. Alternatively, this style is a great solution for room dividers and wardrobes, with the option to completely fold them back.

SHAPED

Bespoke panels that fit perfectly to shaped window openings. This style of shutter enhances the distinct architecture of uniquely shaped windows.

BLACKOUT BLINDS

Add a wider range of light control to our shutters with tension-operated blackout blinds, available in a range of colours. Please speak to our team to discuss options available for your chosen shutter style.
